Today's students are exposed to much more than beer and smoking a little cannabis. Parents and caregivers need to be aware of what's trending today to guide and lead our children.

Participants will gain a better understanding of...

- why students turn to drugs and or alcohol (The answer is not that obvious);
- where students get their supplies and the potential sellers.
- the commonly abused drugs students are using/selling; and
- the signs a student is using drugs.
